

TAF-X

DESCRIPTION

Castrol TAF-X is a fully synthetic SAE 75W-90 multigrade transaxle oil. It is formulated with specially selected additives to combine extreme pressure qualities with synchro-cone compatibility.

It is designed to help improve cold weather gear selection and keep transmission noise levels to a minimum at high operating temperatures.

APPLICATION

Castrol TAF-X is recommended for use in manual gearboxes, transaxles, transfer boxes and final drives where an API GL4 lubricant is specified.

Additionally for all transmissions which require a GL4 / GL5 product without special OEM approval.

PERFORMANCE

API Service Level	GL4/5
VW	501 50

TYPICAL CHARACTERISTICS

SAE Viscosity Rating	75W-90
Density at 20°C	0.860
Viscosity at 40°C, mm ² /s	73
Viscosity at 100°C, mm ² /s	14.4
Viscosity Index	210
Flash Point (open) °C	220
Pour Point °C	-45
